

## HOW I OUR DONATIONS HELP

Oxfam Trailwalker is one of the largest fundraising sports events in Hong Kong. Since 1986, more than 93,000 participants have raised over HK\$509 million to support Oxfam's various poverty alleviation and emergency relief programmes all around the world, including Hong Kong, mainland China, other parts of Asia and Africa. However, there are still countless people living in poverty, and they really need your support.

Please use your Team Page on official website or the Sponsorship Folder to obtain sponsorship. Remember: the more you raise, the more people you can help!

### Creating a generation of global citizens (Hong Kong)

Oxfam is devoted to promoting global citizenship education, helping students cultivate empathy as well as helping them better understand local and global poverty issues. Since the establishment of the Interactive Education Centre in 2005, Oxfam has organised over 2,500 interactive workshops and explored a wide range of issues, including globalisation, working poverty, sustainable development, local poverty, conflict and multiculturalism; more than 90,000 people have participated in these activities.

### Speaking up and responding to humanitarian needs (Syria)

The conflict in Syria broke out in 2011 and has left an estimated 13.5 million in need within Syria, while internally displacing 6.6 million and forcing 4.8 million to flee to neighbouring countries. We have been working in Syria to bring about change through our one programme approach, which focuses on advocacy, humanitarian relief and development programmes.

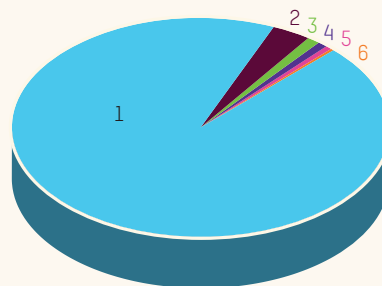

We have also been responding to humanitarian needs in Syria by installing water facilities, and providing hygiene kits and shelter materials.

### 2014-15 INCOME AND EXPENDITURE
